I understand that participation in sports is an expense for everyone and will do my part by doing the following that will work for my family (please circle):

1. Pay \$ \_\_\_\_\_ per month starting in \_\_\_\_\_ and ending with a final payment of \$ \_\_\_\_\_ in May for a total registration fee of \$245.

2. Request a reduction in registration price. I can pay \$ \_\_\_\_\_.

3. I can only pay for a jersey and insurance at a price of \$70 but will sell raffle tickets to help pay for fields and umpires.

4. I can only sell raffle tickets (\$50 worth of tickets).

5. None of the above is feasible for my family at this time and request a full scholarship for my child.

I understand that there are fixed costs for my child to play softball, and by requesting a scholarship from the league I am requesting funds be distributed from a fixed scholarship fund that will limit other children from receiving like funds. In exchange for consideration for any of the above, I agree that my child will participate fully by attending all practices and games possible and complete the full softball season we are applying for.
